EXPERIENCE

Contract UX/UI Designer | United Nations Quality of Life Initiative

Jul 2024 – Jan 2026

- Designed a global data platform used across 170+ cities and 40 countries, driving \$20M in pro bono funding and influencing city policy through accessible visualizations and streamlined admin workflows.
- Implemented WCAG 2.1 compliant data visualizations, enterprise CMS workflows, and an AI agent trained on city laws and regulations, enabling government adoption where accessibility compliance is a prerequisite for public-sector deployment.
- Built a 200+ component design system that cut design-to-development handoff time by 50%, enabling rapid iteration across web and mobile.
- Scaled onboarding workflows that grew city adoption by 174% (62 to 170+ cities) within 6 months, validating the platform could handle rapid government-scale rollout.
- Shaped product strategy through user interviews and usability testing with 10 cross-functional teammates, 25+ city officials, and global stakeholders.

Contract Product Designer | Quality of Life Initiative Hackathon Program

Jun 2025 – Jan 2026

- Led product strategy, creative direction, and brand identity for the UN Hackathon program, growing it from a single pilot into a three-event series that secured repeat sponsor commitments.
- Scaled the hackathon from 80+ to 300+ participants across three events in Canada, China, and Ghana, spanning 6+ university faculties.
- Designed and built the event platform using Cursor AI and Vercel, streamlining registration and sponsor outreach.
- Managed end-to-end event logistics, coordinating **10** volunteers and **5** judges through planning and execution.

Lead UX/UI Designer | Tako Inc.

Apr 2023 – Aug 2023

- Led end-to-end product design for a B2B logistics platform connecting Canada-Japan trade, taking it from concept to launch in four months.
- Accelerated MVP development by 30% through rapid iteration and continuous validation of technical feasibility, enabling the four-month launch timeline.
- Designed responsive interfaces and a scalable design system that increased user engagement by 40%.

Brand and Web Designer | Freelance

Sept 2021 – Present

- Designed end-to-end websites and brand identities for 8+ local entrepreneurs, translating business goals into conversion-focused user flows and navigation that supported client launches.
- Created social media templates for health & beauty small businesses, enabling consistent brand direction across Instagram, TikTok, and Facebook without ongoing design support.

LEADERSHIP & COMMUNITY

Visual Designer | Gender Equity Tech Waterloo Region

May 2026 – Present

- Designed branding strategy and visual identity for an initiative promoting gender equity in tech, increasing visibility for underrepresented groups in the local tech community.
- Hosted and coordinated events that expanded representation and connection among women, non-binary, and underrepresented gender groups in tech.

EDUCATION

University of Waterloo | Honours Global Business and Digital Arts | GPA: 3.8 · Term Distinction

Relevant certificates: W3C Introduction to Web Accessibility • Motion Design with Figma • Google UX Design Certificate • TCPS 2: Certificate in Research Ethics • Human Centered Interfaces (HCI)
